

About CMA

Mission Statement:

- o CMA is a faith-based initiative aimed at equipping others to be community leaders through creative arts.

What are we all about?

- o CMA encourages Christian artists from a number of creative disciplines to break out of the Christian sub-culture (“preaching to the choir”) by taking their creativity outside of church-oriented venues, to where their message is needed the most.
- o Musicians, graphic artists, filmmakers, painters, writers, poets, etc will be equipped with the resources necessary to foster creativity, and share their work with the widest audience possible.
- o Currently based in Warren Country in middle Tennessee, CMA is structured to be a nationwide community of musicians and artists serving their communities.

Proposed Programs

- o Fluid Cafe, currently a working concept as a church-based coffee house ministry, will develop into a non-alcoholic music venue aimed at providing an alternative night life for all ages.
- o Weekly music and arts workshop and mentoring programs in conjunction with existing after school activities, encouraging young people to find safe, positive alternatives to drugs and alcohol.
- o Fund raising events throughout the year, as well as utilizing products such as CD's, DVD's and even t-shirts as both fundraising and outreach tools.
